NOTE FOR: 

The speech given by the Archivist last October has a great deal of guidance we should take.

I don't know what the FPMR's say, but it might be useful to look them over carefully and assign to the C/RAB or C/SSS authorities that are held by NARS. Shouldn't C/RAB or C/SSS have authority to approve all disposals, for example, rather than have it decentralized with Directorates? Shouldn't we try to get magnetic tapes into a regulation? We need to get some kind of general policy established governing all of the items on page 5 of the Archivist speech.

The FPMR's as well as this speech are probably worth a good hard look in terms of the archives and records programs.
